MESSAGE

It gives me immense pleasure to note that the Uttarakhand Judges' Association is organizing a Conference on "*Judicium 2025: Inclusion, Access and Strengthening*" to be held on 23rd February, 2025 at Dehradun.

The District Judiciary, being the first point of contact for millions of citizens seeking legal remedies, forms the backbone of the justice delivery system. However, there are several challenges being faced by the District Judiciary, which require collective focus and efforts. In this direction, it is the Conferences, such as the present one, assume significance as the same gives an opportunity to all the stakeholders of the justice delivery system to sit together and discuss various administrative and service related issues and also to sensitize themselves for speedy and effective disposal of cases.

I hope and trust that the Conference shall resolve all the issues through detailed discussions, and shall guide and encourage all the Judicial Officers for speedy and effective disposal of cases, as justice to all is the basic principle on which the edifice of administration of justice rests. I am sure that the conclusions arrived at and the decisions taken in the Conference will provide a visionary roadmap for the future, which shall serve the best interest of the litigant public and will, ultimately, yield good results for the better administration of justice.

I wish the Conference a grand success.
